### M. LOREDAN'S PIANO RECITAL

A Cairo correspondent writes: — M. Pierre Laredan is, on the whole, to be congratulated on the success of his recital, for the odds were against him. He was provided with an exceedingly had pisson, the tebbe of which had no tone at all, and the attendance was sparse, and inclined to be talkative. I may meetin as glaing examples of this vice three ladies in the sixth row on the right and two laddies in the histh row on the lift (nather group, Bag-lish or French), who, by incessant donversation, did their best to draw phills attention from the pissist to themselves. They could not have achieved this result by other means. I hope they will read these lines. The opport had of the programme was, as will be seen, of a very high standard; but, like Nebucharlogs, and advantage in the more first time at the seen of the escondent writes : - M. Pie

## The New British Club.

The New British Olub. A circular has been issued by the chairmen and hon-serviary of the new British Olub of Alexandria stating that the committee, having overfully examined the estimates for fitting put he clob, finds the funds now available are not sediment to fermish the place as comfortably as could be desired. In fact, rathess more money is forthcoming (they say) two of these rooms must be left unformished. A further sum of £250 is required, and the committee feels justified, in view of the low furer at which the annual subscription has been fixed, in appealing to members for donations to the capital find, and is condicted that this appeal will meet with a generous response. Donations can be sent to the hon- ireas., Mr. P. W. Carver, or to any member of the committee.

### ATTITUDE OF NATIVES.

Alexandria has not been troubled by any fresh disorders, and the attitude of the native population is officially declared to be very testinguil.

The supper-clave natives have expressed a boen desire to assist the authorities in preventing an outbreak on the part of the populace. Many of theps have been voluntarily ourolled as special constables, and have undertaken that, if any outbreats of disorder should break out in their quarters of the city, they will coart themselves to the attack to check it. The Alexandria City Police have not discovered that the riso on Sonday is in any way to be attributed to prematisation. It is considered that had not the Greek shot the Aris discretance would have broken out on that one.

and the first had not the fereek shot the Arab and distributed would have broken out on that day.

Berry prevention has been taken by the attention of the first had been to be a first outbreak.

All he generalth's shops till remain closed. The Greeks who have been arrested in connection with the riot are local subjects and will therefore be dealt with by the Rgyptian arborities.

The geogral opinion in official circles is that the Capitolations were a powerful contributory causes, for the natives recognise that there is one law for the Buropans and another for the Rgyptians, and so wherever a native is imported there is a lawys a predisposition for important to take up his cause on the spot. Rgyptians generally appear to regard the special privileges scoorded to Saropana with a growing disalvary which is often justificable.

It is pointed out that the faroitty of the moto on Sunday has been much exaggerated by timorous Buropanas, for, if the crowd had been as evilly disposed as has been made in out, how is it that not a single Suropan wait killed outright during the disturbance!

### COMPENSATION CLAIMS.

COMPENSATION CLAIMS.

The estimate of the damage done to the property of Italienia subjects during the distarbance has been sent in to the authorities of the Alexandria Gouvernorat by M./ Scotdid, the Hellesio Consul-General. It smooths to £2,000.

The official valuation of the damage, which was undertaken by an engineer of the Alexandria Gouvernorat by order of the Parquest, amonate to the total sum of £50. The discrepancy is significant.

### DEMONSTRATION STOPPED

DEMONSTRATION STOPPED.

A number of Europease had intended to organise a procession through the city on Southey next, headed by a band, as a demonstration seguint the natives. As this would have been a most lifely way to provoke another outburst the police anthorities wisely decided not to allow such a foolish processing, and strict orders have been issued that no such procession is to take place. Any similar demonstration will also be presented by the police in the interest of public security.

### HAMIDIEH-HEDJAZ RAILWAY

(FROM OUR BEYBOUT CORRESPONDENT.) \*II.

(FROM OUR BETROUT CORRESPONDENT.)

\*II.

At Caiffa the stone pier is built with fair rapidity. The climate length of the pier is to be 500 meters, and it is and that the see 561 to be 800 meters, and it is and that the see 561 to be 400 meters and it is and that the see 561 to be 400 meters and it is and that the see 561 to be 400 meters and it is and that the see 561 to be constructed to incharge aright on the quay. The economy resulting therefrom would be very considerable as all fature shipments of material—and there remain about two-thirds to be constructed of the grand line to Meocat—will be transported from Caiffa by the rallway's own trains, instead of, as heretofors, from Beyrout by the French line, which has already made no small profit on the transport of material from Beyrout to Damseous. In other words, the grand line is destined soon to become self-supporting. In the meantims, and until the pier is completed and ready to receive the material direct from steamer's tackle, large lighters of considerable capacity, that have lately been constructed here, will easible the Commission at Caiffa to receive the material fairly excellently, and there is no little economy in that, considering the materior of the sarge, Bett the Silans' vigilance is manifesting itself in every direction. Tarkish steamers of the State-subsidied Makhonoses Line are said to be now transporting part of the railway meterial, and I save one the other care and the save of the other railway meterial, and I save one the other care and the care of the are said to be now transporting part of the railway material, and I saw one the other day discharging a fairly large quantity at

Beyrout.

After the building of the pier the seas retreated and is still doing so, and shout 25

The Hamidich-Hedjez Railway is of the

valuable character, and to serve as a quay for loading and discharging.

The Hamidish-Hedjix Ri'way is of the narrow gauge tyre. It consists of the grand line, which starts from Damasons atflis to end as Mocca, and of the Caiffa Dora braich. The latter is now completed. In fact it was to be for any of the Caiffa or the construction of some of the larger bridges on the Yarmooch having been released, through the strength of the current sweeping away part of the initial foundation work that seems to have been not very solidity made, and that presents of the current sweeping away part of the initial foundation work that seems to have been not very solidity made, and that presents of the current sweeping away part of the initial foundation work that seems to have been not very soliding which is fever, which is so rife in those parts in entimer, and leads to such a dearth of which is fever, which is so rife in those parts in entimer, and leads to such a dearth of which is fever, which is so rife in those parts in entimer, the cannot be solid to the work amidst great difficulties, the principal form the Bogilha obugany about 8 kilomaters long. The Heijas Railway has bought up from the Bogilha obugany about 8 kilomaters of rail already laid, and a few kilometres also of embankment, together with some accessory material. The Caiffa Duralline occase a great part of the fartile plain of Marj Ibd Amir (Phisin of Jerrel), then torns northwards across the Jordan valley, towards Lake Thorias (Bahr Tabanaya) close to the southern' border of which it crises the sinoncities of the Termin', Birdan and Dural the chirton and are the following: "Shimmirph Charles and Dural the chirton and are the following: "Shimmirph Charles and Dural the chirton and for Haife Dera branch comprises several stone bridges some of which rest on five or six arches of heavy masourr, and of six from things six of which rest on five or six arches of heavy masourr, and of six from things six of which rest on five or six arches of heavy masourr, and of six

It is said that a French director has lately been appointed for the exploitation of the Haiffa-Delfa section, and this augurs well for the railway, for the transport will obstrainly be cheap, and what is needed only is adequate management that will imprise public confidence. A provincial tariff has already reduced to versa aid that it is to be ultimately reduced to even 10 paras. The first-closic coarriages are said to be very well fitted up and quite confortable. In both Haiffa and Dena two important workshops have been established with full mechanical installation, and two large sheds for locomotives, etc., close to the stations, which are fairly large. Moreover two large buildings have been raised to provide lodging for the permanent workman and employes, busides a large waveboos and an open sendence of no small dimensions, for the reception and temporary storing of goods. It is said that a French director has lately March. 9 h Friday. 12th Monday 20th Tuesday 24th Saturday and 25th Sunday.

I have already said that the work of survey and enhankment from Kelsat El Medawars to Dhat El Haj has already been taken in hand and after its completion the Arabian line proper may be said to have been for Dhat El Haj lies at the attentity of Al Hajns, inear the northern limit of Al Hajns, I had the the third of the grand line is practically schiver, and there is every reason to believe that the consummation of this grandices preject is not after off. While the Sultain is there to direct and watch, the work will progress and continue. What has already been accomplished may be considered as an excrust of the crowning of the gigantic enterprise. On the Haifs-Dere branch, and that part of the arranding of the gigantic enterprise, On the Haifs-Dere branch, and that part of the crowning of the gigantic enterprise, On the Haifs-Dere branch, and that part of the order of the crowning of the gigantic enterprise, On the Haifs-Dere branch, and that part of the order is not a already monitored, unter those bridges there are six iron ones, four of which are 110 meters long seak and two of 50 metres length each, while on the grand line there is so far andy one iron bridge 15 metres long. But on the grand line there are 8 tunnels the length of which varies between 40 and 237 metres each. Such is the shown of the shown of the shown of the help of the the shown of this giventy and article of the property of the prope 40 and 227 metres each. Such is the scheme that has been so diligently and art fully elaborated by the Sultan Abdul Hamid soheme that has been so diligently and art-fully elaborated by the Soltan Abdoll Hamid, to be at the same time the cumblem and the link of Pan Islamism. The line is not yet half-way from the secred towns and behold it has already drawn together in spirit the Moslem world. Nobiase and Somali, Moors and Egyptiane, and indeed the larger and most populated half of Afrisa, Arabia, Persis, and Turkey, and the Moslems of Iodis that are scattered all over that great Empire, and represent he most advanced and intellectual portion of its population, Moslems from Southers and Gebes, and the smaller Maley group, Bash rear from the North East of Sorpean Resis, Kirghit, Turcomans and Turkey—all those peoples illemined by the monotheristic creed, but who have hitherto exited as scattered units of potential force, have been brought together by the Sultan Abdul Hamid into one homogeneous mass of splittcal force; and now the greatest of European Novers, in its dreams of future conquests, will have to recken with this immones and awe solidarity of Islam as one of the deedliest weapons of the Saltan of Turkey, who seems likely to rectain, while Islam exists, the temporal and spiritual head thereof.

### EGYPT EXPLORATION FUND

The "Athenseum" remarks The "Atheneous" remarks:— "The general meeting of the Egypt Exploration Pond last month did not, pass off without some significant incidents. Although the Chairman, Sir John Evans, boped in his address that the separation from Prof. Petrie was only emporary, and that the Pand would soon find émporary, and that the Pond would soon fud-issel again in a polition to retain his services. Prof. Petrie himself seemed to insist on resard-ing it as permanent, and "symbolically lest het plasform to seat himself among the addisone Before the meeting was over, also, a talegram from the Americas Committee was received, to the effect that they resigned in a blody— more which is perhaps explained by an article in the current "Biblis" in which Dr. Winslow the former secretary of the Fund in America in the current "Biblia" in which Dr. Winslow tha former secretary of the Fund in America calls upon all true Americans, until they cat start an Exploration society on their own account, to subscribe to Prof. Petrie's new venture, the Expression, Research Account rather than to the Fund over which Sir John

account, to subscribe to Prof. Petrie's new verture, the Egyptian, Research Account, rather than to the Fund over which Sir John Brans has hitherto presided. The folly of eying races when thre is no peace was never more dramatically illustrated.

Apart from this, however, the Fund's accounts show that its affairs are by no means in a Hourishing condition, and the successor of Sir John Brans—whose retirement from the presidency on account of ago is a real lons—will have to be a strong must if matter are not to srow worse. There is again a large increase of expenditure in excess of income, and although the Beglish abscriptions keep up fairly, the American, which four years ago exceeded them in amount, may henceforth be taken as a neglicible quantity. Moreover, the accounts when that, while one of the excavators employed by the Pand was in receipt of a regular salary, the others were content with their appresse only; and it is at least doubtful whether explorers at once so taslous and/or distinct-sets will be found in fatter. The fact is that the Pand, has been suffering for some time past at once from divided cobusels and frem the frame of mind which the Scotch call "sin ring one's mercies." The resent expeditions to Ahnas, and Sinai have produced, in spite of much blowing, of trimpets, no results at all commenserate with the money expended to let slip. Yet it would be an antional calantly if the Pond's long and, on the who's, brilliant career of work were now to be closed; said it is to be hoped that the subscriptions and the simultaneous when the subscriptions and addired to in fature.

## ANONYMITY IN LIBEL

ANONYMITY IN LIBEL

A singular libel action, and one intended to not to the test of judicial examination a question (of deep importance, is now before the Paris courts. A Paris newspaper reconsty related a certain adventure of gallantry, the central figure of which was stated to be a pairth private of the capital, who, however, was not named. All the 65 pairsh private of the city have now instituted a common slander action, each with the object of vindicating himself. Each olaims £40 damages. The defendant raised technical objections on Thursday, but these were overreled, anothe case is to be tried on its merits to January 10.
